

ACC TALKS

R . S . V . P .

WHATNEXT@ALPENACC.EDU
(989) 739-1445

Topic: Artificial Intelligence Applications/Advances/Advantages

"Artificial Intelligence" is intelligence demonstrated by machines, as opposed to intelligence displayed by humans or other animals. AI overpasses the ability to learn, to reason, to generalize and to infer meaning.

ACC TALKS is privileged to have John Gustincic from Central Michigan University's College of Business Administration, Greg Winter, Multi-State Serial Entrepreneur, and Jackie Krawczak, Leadership Development Consultant; visit and as a panel discuss the pro's and con's of Artificial Intelligence in our education, business and personal sectors. Stop by and join the discussion.

Date: Wednesday, September 27, 2023

Time: 6pm - 7pm (*doors open 5:30pm*)

Oscoda Campus | Alpena Community College
5800 Skeel Avenue, Room 213, Oscoda MI 48750
