Agri-Business 2030 (A Future Look... NOW!)

Given the pace of change in every business sector... trying to plan for one-two-or three years down the road is a tremendous challenge for us all. With these challenges in mind ACC TALKS is privileged to have a GREAT **Agri-Business 2030** panel ready to shed some light on topics to watch. Whether it's technology, crop production and/or national markets... a fun look to the future is the "plan"!

Please stop by and join Nathan Beyerlein - Hutson John Deere, Ashley Batteen - MDARD, Theresa Sisung - Michigan Farm Bureau for an exclusive **Agri-Business 2030** presentation and discussion.

MICHIGAN'S VOICE OF AGRICULTURE
