## Agenda:

### A. Welcome and Thank You!

B. Dr. Marv Pichla: Progress Announcements

C. Guest Entrepreneur: Warren McClure

Warren is the Executive Director of Factory Two, a nonprofit makerspace in Flint, Michigan, where creators, inventors, and curious minds come together to learn, build, and collaborate. With a background in hands-on making and a fascination for how things actually work - as well as a personal love for CNC-driven tools - Warren has spent his career at the intersection of community, creativity, and good old-fashioned elbow grease. But more than anything, he's passionate about building a community of nerds—creative, helpful, endlessly curious folks—who support each other and welcome anyone ready to dive in and make something awesome.

D. Next Session: To be determined!

**Call Marv Pichla with meeting questions. (989) 214-0181**
