FEELING FALL OF WELLNESS

The Fall is a great time to settle into a new but familiar routine. Our days will be shorter soon which means less sunlight. One wellness tip for fall is to step outside each day and try to get at least 10 minutes of sunlight, if you can do this in the morning – even better! Having less sunlight means lower vitamin D – check with your health care provider and see if supplements could benefit your wellness! Seasonal Affective Disorder (SAD) - one can experience lower moods or fatigue as we lose daylight. Light therapy can be a huge help, feel free to use the therapy light in the Student Lounge – Room 210. Keep your immune system in check with 7-9 hours of sleep each night, herbal teas such as Ginger, Echinacea and Chamomile soothe and support immunity. Find what routine works for you and you can feel Fall of Wellness!
