

Workforce Development Monthly

October 2021

TRAINING OPPORTUNITIES AVAILABLE

With CET grant funding now in place, ACC's Workforce Development department is ready to schedule your workplace safety training.

The CET grant program was initiated as part of the MIOSHA effort to help assure a safe and healthful workplace. These grants are awarded on an open competitive basis to Michigan management/employer groups, labor/employee organizations and other non-profit groups such as universities, hospitals and service organizations.

ACC's FY22 Grant will provide at least 1480 hours of training to local and regional business in the residential care, manufacturing, construction, and utility line clearance (tree trimming) industries.

Building from past experience and proven successes, ACC will work with local residential care homes to assist staff with training in workplace violence and ergonomics. Due to the limited staff at each facility, training may be done on site. Local manufacturers consistently

request OSHA 10 hour training, and presentations in such areas as asbestos awareness and bloodborne pathogens.

When appropriate, ACC may incorporate virtual options for workers, utilizing Cisco WebEx Video Conferencing systems and the WebEx platform, to best meet the needs and availability of regional companies.

MIOSHA Training Institute Presents:

Pts 42, 92 and 430 - Hazard Communication & Right-to-Know Requirements for General Industry and Construction

December 8, 2021

9:00am-4:30pm

Train. Prepare. Succeed.

ALPENA
COMMUNITY COLLEGE

Blockmakers to continue in 2022

Blockmakers classes, a partnership with ACC and Besser Company, provides hands-on, industry specific training in an accelerated, detailed format. It's been an honor welcoming blockmakers from Arizona, California, the British Virgin Islands and states in between. Our next round of training resumes in January 2022.

ACC seeks “champion” for new program

In a partnership with the Northeast Michigan Regional Consortium, ACC was awarded the MiLEAP grant in July 2021. One of the grant's key strategies is to create a new curriculum focusing on the tree trimming industry. After approximately one semester, students will be immediately employable and will receive a certificate from Alpena Community College.

ACC is currently seeking a champion to build and implement this program. Interested candidates can view the full job description and details at [discover.alpenacc.edu](https://www.alpenacc.edu/discover).

SIMULATION TRAINING AVAILABLE

WITH FUNDING provided by a Strengthening Institutions Program (SIP) grant, Alpena Community College purchased simulation manikins to be used in the nursing program. Simulation Lab Manager Terry McKenzie is offering **FREE** simulation training to area medical first responders, paramedics and medical workers.

TRAINING TOPICS FOR MEDICAL WORKERS

SEPSIS SIMULATION

Evaluate the validity of clinical criteria to recognize and treat patients who are at risk of sepsis.

CODE SIMULATION

Gain confidence in resuscitation skills.

BIRTHING SIMULATION

Improve patient safety in women's health & facilitate teamwork & critical thinking skills

TASK ORIENTED TRAINING

IV insertion, Foley placement, etc.

TRAINING TOPICS FOR FIRST RESPONDERS AND PARAMEDICS

Intended for area first responders and paramedics to provide essential hands-on birth training. Learn what to do during an emergency labor and delivery, and how to manage complications.

- **Simulated delivery**
- **Post-partum hemorrhage**
- **Neonatal care**

About your instructor

Terry McKenzie, MSN, RN, is the Simulation Lab Manager at Alpena Community College and a practicing ER nurse.
