

Workforce Development Monthly

September 2022

ACC CELEBRATES 70 YEARS! Thank you to our volunteers, community members, sponsors and area businesses for helping us celebrate our 70th anniversary September 17. We loved sharing our accomplishments and growth over the past 70 years. Here's to 70 more.

CALLING ALL MASTER PLUMBERS & LICENSED JOURNEYMEN.

Alpena Community College is providing the **MICHIGAN PLUMBING CODE** 3-hour update class **November 7 from 10:30am-2pm**. The cost is \$265 which includes lunch and the current code book. Don't need the code book? The cost is reduced to \$160. (It's ok to share a book with a colleague!) Your instructor is Kendall Nightlinger, Senior Code Specialist at Ino-Tek, Act 54 approved instructor and licensed mechanical contractor & plumber. Contact Lisa Blumenthal at 989.358.7296 or blumentl@alpenacc.edu to reserve your spot. The class will be held in the World Center for Concrete Technology in Alpena.

Our **DRONES & PART 107** class sold out quickly and we're working with the instructor to offer a second date. Interested and want to be added to the wait list? Contact Lisa Blumenthal 989.358.7296 or blumentl@alpenacc.edu. The \$1000 cost includes a Mavic Mini drone, with funding available through the MiLEAP Program. This 3-day course is for anyone flying drones commercially who must know about the current FAA rules as they apply to drones.

Donald Newport, Dr. Don MacMaster & Dr. Olin Joynton

Celebrating 70 years

Train. Prepare. Succeed.

UTILITY ARBORIST PROGRAM

Utility Arborist Line Clearance workers are critical to the infrastructure of our electrical industry. They provide a vital service to ensure a reliable and safe power grid. ACC is committed

to verifying all trainees meet the ANSI Z133 consensus standard.

- Earn your OSHA 10 & AHA First Aid/CPR certification
- Prepare for Pesticide Application Spray Test & Commercial Driver License
- EHAP & aerial rescue training
- Climbing skills focused on daily
- 16-weeks, 250-hours
- \$3600 with funding assistance available
- Job opportunities upon completion; starting pay \$28-30/hr.

This program is designed to prepare students for working with trees and vegetation around energized electrical lines. Training includes climbing techniques, tree felling, gear & knots. Proper positioning, fall protection techniques & trauma training will also be taught. Our Instructors, carefully selected by leaders in the industry, follow OSHA Special Industry standard 1910.269 as it relates to training and employment preparation. Students will be trained and certified to comply with safety-related work practices and procedures (including emergency procedures).

Lunch & Learn at ACC

Join Dawn Stone, ACC's Dean of Workforce Development, for "Grant Writing 101," a special Lunch and Learn series. The 3-day workshop will help you to develop the skills to execute successful grant applications for any organization. This series will provide comprehensive information about the granting process and address critical aspects of writing a fundable proposal. Learn to demonstrate strength and viability of your organization and how to give a compelling description of the situation your project will address. Understand essential components of grant proposals and how to match a granters' interests. **The series begins November 8, 2022.**

To register, visit ACC's Eventbrite [page](#) or email blumentl@alpenacc.edu.

Dawn Stone is the Dean of Workforce Development and the Director of the World Center for Concrete Technology. With over 20 years experience in grant writing, she has secured nearly \$8 million in funding for Alpena Community College and has a nearly 100% success rate in grant writing.
