INTRODUCTION TO MEASUREMENT, MATERIAL & SAFETY

FREE training available to qualified candidates

MANUFACTURING CERTIFICATE PROGRAM

Manufacturing is one of the fastest-growing, high-demand industry sectors in Michigan. With funding provided by a MiLEAP grant, Michigan Works! Northeast Consortium and Alpena Community College offer no-cost training to qualified candidates (a $980 value).

Here’s how it works:

This is an introductory class that is intended to provide training, evaluation and skills necessary for an entry level position in manufacturing. Following a self-paced online portion, students must complete an in-person lab component. To participate in the lab component, the online portion must be completed by March 11, 2022. The mandatory in-person lab component will be held during ACC’s Spring Break (March 14-18, 2022) and costs $50.

Register:
Contact Mary Trudgen at 989.306.7790 or trudgenm@nemcworks.org to register.

Course focus areas include:
- Basic workplace skills, including safety
- Decimal and fractional measurement training
- Material identification and basic processing
- Print reading

Applicant & course requirements:
- U.S. Citizen or an eligible non-citizen
- 18 years of age or older
- Commitment to training
- 90% pass rate of online component
- Other eligibility factors may apply

Michigan Works! Northeast Consortium is an equal opportunity employer/program and a proud partner of the American Job Center Network. Auxiliary aids and services are available upon request. Supported by the State of Michigan. Funded with federal funds; details available at www.miworksne.org/about TTY #711
