Alpena Community College is thrilled to offer a Continuing Education Seminar for Licensed Contractors Presented by Bruce Frost, MBS, NAHB/DDL.

Learn new concepts associated with Green Energy including bio mass fuels and photovoltaics.

Continuing education is now required for all licensed builders in order to renew their license. The State of Michigan requires you to complete 3 hours of credits in the 2017 licensing cycle (cycle ends May 2017) in order to maintain your Builders and M & A Contractors License. This seminar will fulfill your Continuing Education requirement for the license cycle ending May 2017 along with 1 hour of Green Energy information.

JOIN us for a 4 hour session that will include:

- Green Energy covering bio mass fuels & photovoltaics
- 2015 Michigan Residential Code & 2015 Energy Code
- Legal
- MIOSHA Safety

At the end of the class all students will receive a certificate signed by the instructor verifying proof of attendance and ensuring your compliance to be sent in with your 2017 License Renewal.
